

Moshannon Valley Park & Ride Study

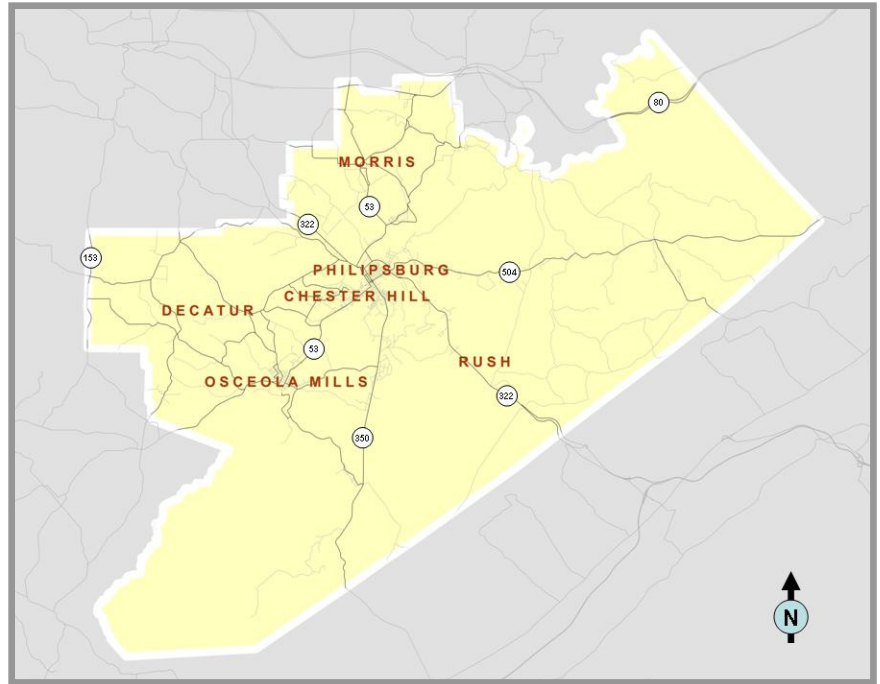

Project Information Sheet

May 4, 2011

Study Area:

The Moshannon Valley Study Area includes the following municipalities in Clearfield and Centre Counties:

- Chester Hill Borough
- Decatur Township
- Morris Township
- Osceola Mills Borough
- Philipsburg Borough
- Rush Township

Project Purpose:

- *The Moshannon Valley is one of the most transportation-disadvantaged communities in Centre and Clearfield Counties, particularly in regard to alternative modes of transportation.*
- *The use of informal “park & pool” lots in the Philipsburg area has grown and has reached a significant level. This existing activity is currently using public and private property “ad-hoc” without the expressed permission of property owners. As such, liability and the potential for stable, long-term use are unclear.*
- *The need to improve transportation service to the Moshannon Valley has been a top-ranked priority for both the Centre County Metropolitan Planning Organization and the North Central Rural Planning Organization. Therefore, the Area Transportation Authority of North Central Pennsylvania (ATA) and the Centre Area Transportation Authority (CATA) are looking to coordinate their expansion of transit service to the Moshannon Valley.*

Types of Park & Ride Facilities:

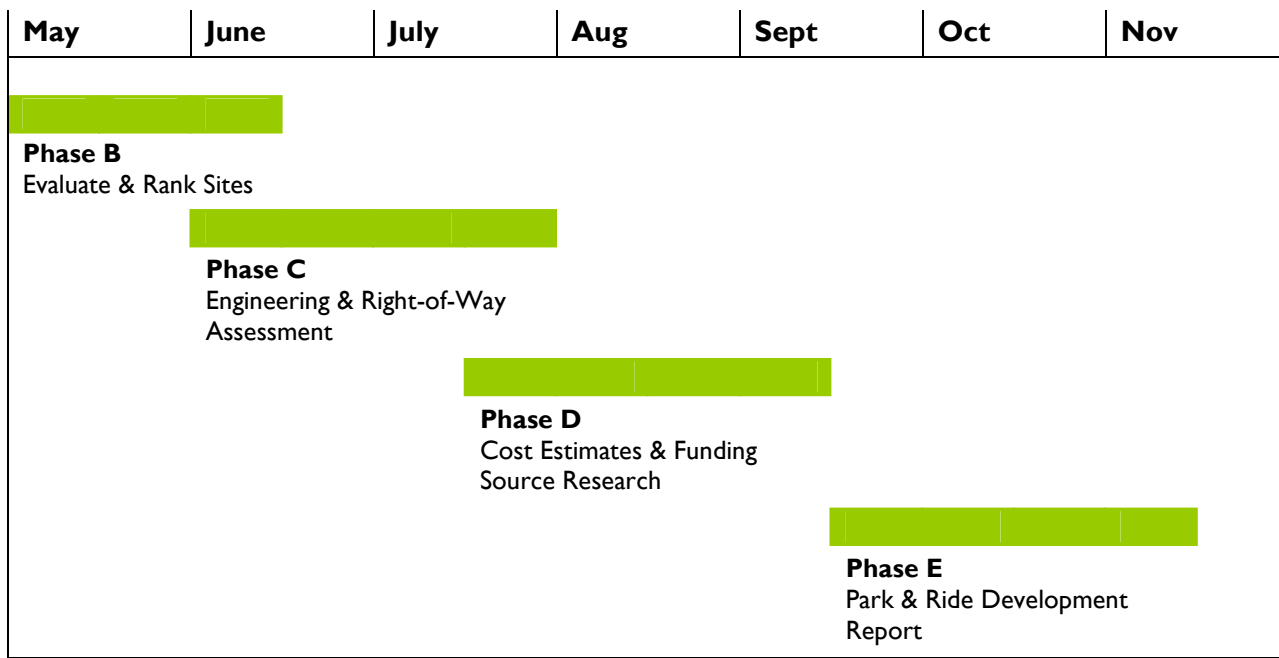

Park & Ride -- Location where you can park your car and travel with a friend or co-worker to and from your destination.

Park & Transit -- Location where you can park your car and travel using public transportation to and from your destination.

Park & Pool -- Location where you can park your car and travel using a pre-arranged van or car pool service to and from your destination

Project Schedule:

May 2011 – November 2011
